

ROI Methodology Certification

In today's organizations project sponsors and those who have responsibility for the success of projects are held more accountable than ever for the financial impact of their programs and projects. **ROI Institute Canada** is a leading provider in measurement, evaluation and ROI certification – enabling Canadian public and private organizations to prove the value, impact and ROI of programs, projects and improvement initiatives.

Become a Certified ROI Professional

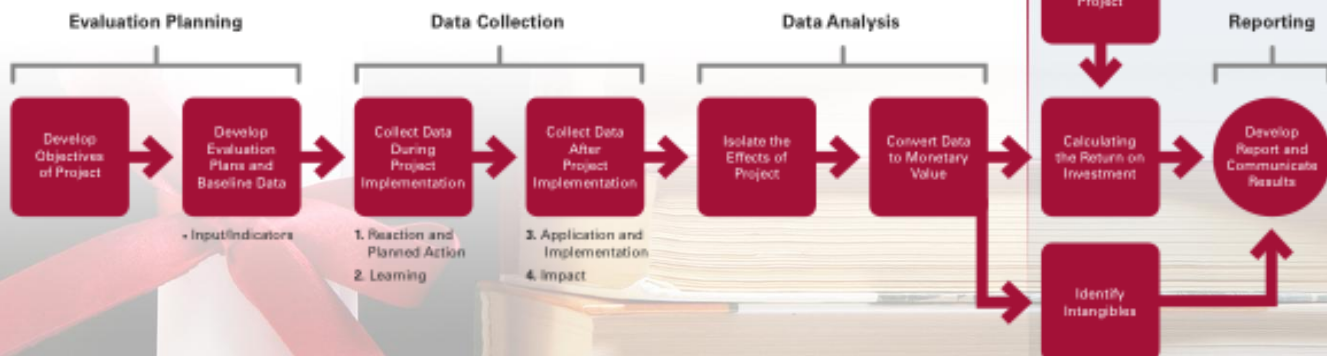

Fully master all the skills you need to implement a comprehensive ROI initiative in your organization in our five-day Certification workshops. You'll gain the skills to become certified in the ROI Methodology™, and you'll learn how to sustain the measurement and evaluation process on a continued basis. You'll also receive support once you complete a workshop to conduct an impact study in your own organization. Once you've demonstrated competency in applying the ROI Methodology, you will earn the prestigious **Certified ROI Professional** designation. *No other workshop gives you access to the same level of expertise as ROI Certification.*

Why ROI Certification

- Build capability to measure impact and ROI of projects and programs
- Provides a skill set to apply the ROI Methodology as a program or project improvement process
- Gain the ability to implement the Methodology in your organization
- You become an ROI expert
- You will strengthen your working relationships
- Applying this credible Methodology will result in obtaining and securing funding for programs and projects
- You acquire a higher level of respect from executives

The Phillips ROI Methodology™

The Phillips ROI Methodology is a step-by-step credible process that meets the need to show the value used by organizations all over the world. The methodology is a simple to use and proven process that will generate a balanced set of data that is believable, realistic and accurate – particularly from the perspective of sponsors and key stakeholders. To allocate funds to programs, projects and improvement initiatives that deliver the highest value you must have a method that credibly proves or “shows” the value.

Why Measure ROI?

It is evident that there is an increasing demand to show the financial impact of expenditures that invest in people, learning and development, HR and improvement initiatives. There has always been a concern over the value of programs, projects and all organizational improvement efforts and now the definition of value includes financial impact. The expenditures used to be categorized as a “cost of doing business” – now they are an investment and demand a ROI.

Benefits of ROI

Over 4000 organizations using the ROI Methodology have experienced a variety of impacts and consequences. Here are some of the primary benefits:

- Improve programs
- Build support
- Improve Departmental/Group Image
- Secure funding
- Strengthen working relationships

Who Would Benefit from ROI Certification
